How to FIND Your Public Profile URL on LinkedIn:

You actually have two URLs which get you to your same PUBLIC PROFILE on LinkedIn

- 1) a URL based on your Name
- 2) a URL based on your LinkedIn Membership number

NOTE: They are both short and go to the same PUBLIC PROFILE -- so either works fine for signatures, websites, forms, etc.

METHOD 1

- 1) Login to your LinkedIn Acct
- 2) Go to your "My Profile Tab"
- 3) Select "Public Profile"
- 3) Select "Edit My Public Profile"
- 4) COPY from the "Your Public Profile URL" box just above your Public Profile Check Boxes

Note: this URL should have the following form

<http://www.linkedin.com/in/xxxxxx>
where xxxxx is based on your name

METHOD 2

- 1) Login to your LinkedIn Acct
- 2) Go to your "My Profile Tab"
- 3) Select "View My Profile as others see it"
- 4) Copy the URL of that page

Note: it should have the following form

<http://www.linkedin.com/profile?viewProfile=&key=xxxxxxx>
where xxxxx is YOUR LINKEDIN MEMBERSHIP NUMBER
